

Dear Friends,

Professors at Graduate study programme in Environmental sciences at University of Nova Gorica would like to continue the series of International schools which we started as pre-event of EMEC11 conference. From that reason i would like to invite you to participate to International summer school entitled Atmospheric pollution: chemistry, transport and monitoring; which will be held from 5.-18. June 2011 in Nova Gorica, Slovenia.

More about the school, programme, speakers, accomodation, deadlines etc. you may find on the web site <http://sabotin.ung.si/~isschool/index.html>

I would like to ask you to spread this information among your friends and other people who might be interested in as well.

With regards and hopes to see you in Nova Gorica again, Polonca
